

CLOCK READING 1

Activity 1: Make a paper clock.

Have a discussion with your parents about what happens to the big hand as the little hand goes from one hour to the next. Example: When the big hand is at 12, the hour hand is pointing exactly to a number. What happens when the hour hand is halfway past a number? Where is it? Cover the minute hand now and then on a real clock and try to guess where the minute hand is.

Remember: The short hand moves from one number to the next number in one hour.

1. QUESTION

How many minutes will the long hand take to move from:

a) 12 to 1 = _____ minutes

b) 5 to 8 = _____ minutes

c) 12 to 9 = _____ minutes

d) 1 to 4 = _____ minutes

e) 2 to 8 = _____ minutes

f) 12 to 7 = _____ minutes

g) 7 to 1 = _____ minutes

2. QUESTION

What is the time on the clock?

Answer = _____

Answer = _____

Answer = _____

Answer = _____

Answer = _____

3. QUESTION

Complete the digital time.

Answer = _____

Answer = _____

Answer = _____

Answer = _____

4. QUESTION

Select from the list below the time on the clock.

☐ half past 1

☐ half past 2

☐ quarter to 1

☐ 1:30

☐ 2:30
