

PERCENTAGES 1

Percentages can be expressed as common fractions. Percent means “per hundred” or “hundredths”,

$$12\% = \frac{12}{100}$$

$$8\% = \frac{8}{100}$$

Percents can be easily changed to decimals as well.

So far: 12% is also 0.12 | 8% is also 0.08

Exercises

1. QUESTION
