

MORE BILLS 1

There are also bills that are calculated according to usage or consumption amounts such as telephone, electricity, and even water.

Example:

Below show a calculation for Mr. Browne's telephone bill.

Local Calls 120 min @ 75 c per min = \$90.00

Foreign Calls:

United States 30 min @ \$2.50 per min = \$75.00

Total calls	\$165.00
-------------	----------

Plus: V.A.T @ 12.5%	= \$ 20.63
---------------------	------------

Bill Total	\$185.63
