

GEOMETRIC PATTERNS

Geometric Patterns consists of a series of shapes. Much like numbers, shapes can also make patterns. You must identify the rule the pattern follows.

Observe the pattern below. Can you tell what shape is next?

Once you observe the shape and colour you would notice the next shape is a green pentagon. Patterns could also show a change in the shape as well. View the following videos below.

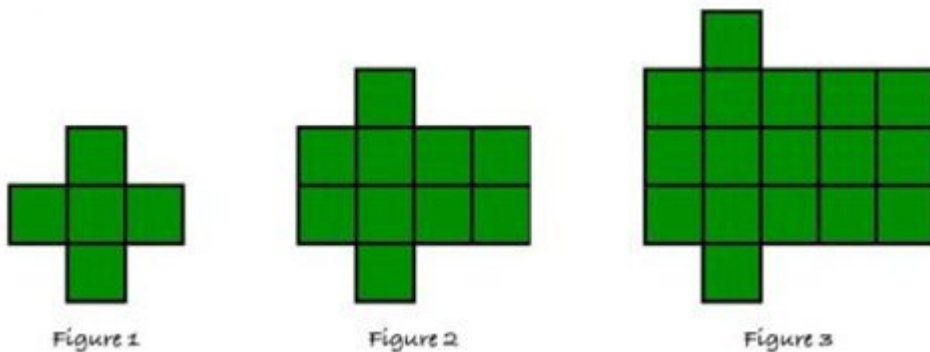

1. QUESTION

Which pattern comes next. Draw the shape.

2. QUESTION

Complete the table below showing the geometric pattern that follows.

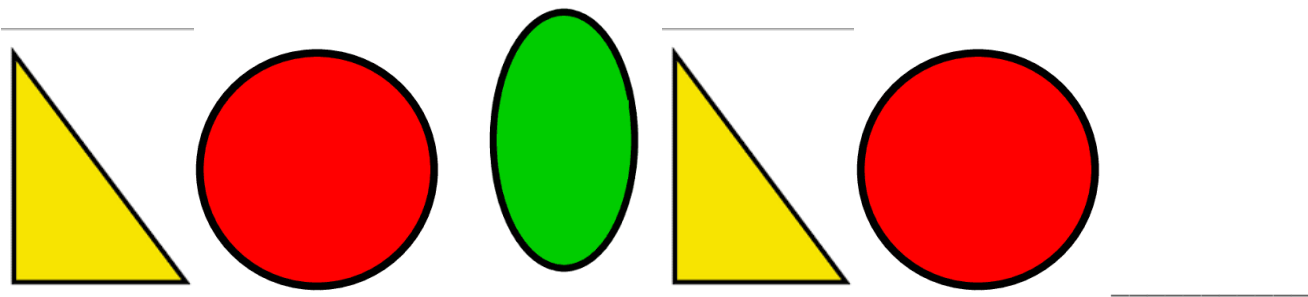

3. QUESTION

Complete the pattern.

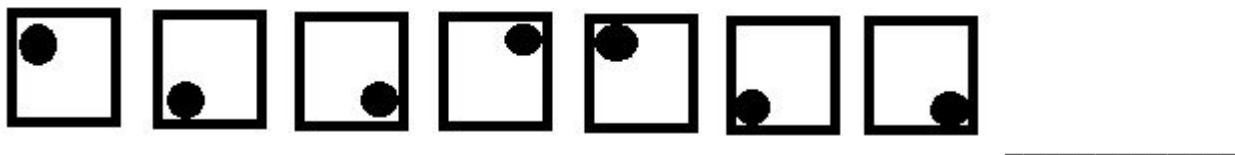

4. QUESTION

See the pattern below. Can you tell what is next?

5. QUESTION

Look carefully to identify and complete the pattern below. Draw the next pattern.

7. QUESTION

Complete the table below to show the rule and determine the number of boxes in 4.
