

ESTIMATING 3

Exercises to help you develop your estimation skills.

Mark and his family are going to the stadium to see the International Cricket Competition.

The tickets cost \$150 per adult and \$95 for children.

The vendors at the stadium have the following for

hot dogs	\$ 4.50
popcorn	\$ 5.75
juice	\$ 9.60
vegetarian sandwich	\$ 25.00
doubles	\$ 8.00

sale:

When estimating you can round to the nearest 10.

1. Estimate the cost of the tickets for the family.
2. Estimate the cost of 4 hot dogs.
3. Estimate the cost of 6 bottles of juice
4. Estimate the amount of sandwiches one can buy with \$265.
5. What three items could the youngest buy with his 20 dollars? Select the two options.
