

Using Calendars

Managing your time as a student can be challenging. At times students procrastinate or fall behind classes. This is especially common during these times as most students are taking online classes. Only when you learn to manage your time, plan and structure your activities you begin to enjoy a balanced life and stay on top of all your school work.

Let's look at Drake's weekly calendar. He updates it every Monday. This is his weekly calendar to date. (Note: this is a fictional date). Observe the calendar and then answer the questions that follow. This exercise will be done in class.
