About Me:

This is my 14th year as a teacher. I have taught almost every grade in elementary school (1st through 5th grade) and have been a literacy facilitator. I am a reading specialist and word study enthusiast. I studied under Shane Templeton and Donald Bear at the University of Nevada, Reno.

Teachers are the most amazing people on the planet. I am convinced that they work harder than any other profession. I hope that my products save you time so that you can enjoy life with your own family and friends.
