

# CONVERT GRAMS TO KILOGRAMS

1000 grams = 1 kilogram

## Example:

4500 grams =  $4500 \div 1000 = 4\frac{1}{2}$  kg or 4.5 kg

Answer the following questions.

1. Martha has two boxes weigh 270 grams and 2610 grams. What is the approximate weight of the boxes in kilograms?

Answer = \_\_\_\_\_
